About Event

Catalysis 4.0 is a two-day multi-event experience designed to ignite innovation and accelerate ideas into impactful outcomes. Bringing together diverse domains like technology, design, gaming, and strategy, the event creates a dynamic platform for participants to learn, compete, and collaborate. With a Pokémon-inspired theme of evolution and progression, Catalysis transforms every challenge into a journey where participants grow their skills and rise as champions.

General Rules & Policies

CODE OF CONDUCT:

FAIR PLAY: All participants are expected to uphold the principles of fair play, good sportsmanship, and integrity throughout the event.
NO CHEATING OR EXPLOITS: Any form of cheating, including but not limited to using unauthorized software, tools, or exploiting loopholes, is strictly prohibited.
RESPECT FOR OPPONENTS: Participants are expected to treat their opponents, fellow participants, and organizers with respect and courtesy.
NO DISRUPTIVE BEHAVIOUR: Teams/individuals must not engage in any form of disruptive behaviour, including attempts to sabotage the progress of other participants.
ENVIRONMENTAL RESPONSIBILITY: Participants should adhere to environmental standards, respect the campus environment, and not cause damage to any campus property or infrastructure.

GROUNDS FOR DISQUALIFICATIONS:

Participants/teams may be disqualified for violations of the event rules, including but not limited to:

- Cheating or plagiarism
- Unsportsmanlike conduct
- Sabotaging the event or interfering with opponents
- Not adhering to the code of conduct
- Use of unauthorized tools, software, or external assistance
- Violation of any event-specific rules
- CollegeID not available for all individuals/team members

The event organizers' decisions in such cases are final.

DISCLAIMER:

The event organizers reserve the right to modify the rules, problem statements, guidelines, or any other aspect of the event at their discretion. Participants are expected to adhere to any such modifications and conduct themselves in a sportsmanlike manner. All decisions made by the judges and organizing committee are final and binding. The organizers are not responsible for technical issues beyond their control that may impact the event.
By participating in any Catalysis 4.0 event, participants agree to abide by the terms and conditions outlined in this rulebook.

TECHNICAL ISSUES & CONNECTIVITY:

- Participants are advised to use their own stable 5G/4G data and chargers. Organizers are not responsible for individual lag or disconnections.
- In case of disconnections, match results stand as played unless both parties agree to a rematch or a global server crash occurs.
- A delay of more than 5–10 minutes for a scheduled match/round will result in a forfeit.
- Participants must use their own mobile devices and ensure they are fully charged.

ETHICAL CONSIDERATIONS (for coding/building events):

- Plagiarism, defined as the submission of someone else's work as one's own, is strictly prohibited. All code/work must be original and created during the event.
- No extra time will be provided to any participant.
- Pre-written code, templates, or prepared content is not allowed unless explicitly stated.

GENERAL ELIGIBILITY

- All students of Dayananda Sagar College of Engineering (DSCE) are eligible to participate in Catalysis 4.0 events, irrespective of department or semester.
- A valid college ID must be carried and presented when requested. Participants without a valid ID will not be allowed to participate.
- Pre-registration is mandatory for all events. No on-site or walk-in registrations will be accepted.
- Participants must be present at the venue before the scheduled start time of their event.
- Each participant can only register for an event once. Duplicate registrations will be void.

TEAM EVENTS

- For all team-based events, each team must consist of exactly 3 members.
- No changes, substitutions, or additions to the team will be allowed once the event has begun.
- Each participant can only be a part of one team throughout the competition.
- All team members must be physically present at the venue during the event.

DEVICE REQUIREMENTS

- For events that require devices (laptops, mobile phones, etc.), participants must carry their own devices and ensure they are fully charged.
- Participants are advised to carry their own chargers and power banks. Organizers are not responsible for charging facilities.
- For mobile-based events, participants must use their own stable 5G/4G data connection. Organizers are not responsible for individual connectivity issues.

Typemaster

Typemaster is a fast-paced typing competition designed to test participants' speed, accuracy, and consistency under pressure. Compete against others and prove your efficiency in real-time challenges.

- Date: 17 April & 18 April
- Time: Whole day
- Mode: Individual

1st Prize
₹2000

2nd Prize
₹1000

Event Coordinator

Name: Tanmay
+91 9555733915

EVENT OVERVIEW

The "TypeMaster" competition is a fast-paced individual typing challenge designed to test participants' speed and accuracy. Each participant will have a limited number of attempts to achieve their highest possible score. The event will be open throughout the duration of Catalysis, allowing participants to compete at their convenience.

EVENT RULES

Attempt Limits:

- Each participant is allowed two attempts in total.
  - One trial run to familiarize themselves with the system.
  - One actual run, which will be counted as the final score.
  - No additional attempts will be granted under any circumstances.

Scoring & Tiebreaker:

- The primary score will be based on typing speed (words per minute).
- In case of a tie, accuracy will be used as the deciding factor.

Time Limit:

- Each actual typing attempt will have a fixed time limit, which will be announced before the event.
- The trial run will also follow the same time limit but will not count toward the final score.

Coding Relay

A team-based coding challenge where participants take turns to build and complete a solution collaboratively. Strategy, coordination, and quick thinking are the keys to winning.

- Date: 18 April
- Time: 12:15 PM – 2:00 PM
- Mode: Team of 3

1st Prize
₹5000

2nd Prize
₹2500

Event Coordinator

Name: Yash Agarwal
+91 8140724216

EVENT OVERVIEW

The "Coding Relay Race" is a dynamic team-based programming event where three-member teams collaborate to build a functional solution to a given problem statement within a limited time frame. Participants will engage in a relay-style format, with each team member taking turns to enhance and extend the codebase.

EVENT RULES

Eligibility:

- Teams must consist of three members each, and all members must be registered participants of the event.
- Each participant can only be a part of one team throughout the competition.
- All team members must be physically present at the venue during the event.

PROBLEM STATEMENT DETAILS:

- The problem statement (for example - developing a hospital management system), will be provided to the first team member only.
- The problem statement may include specific functionalities, constraints, and requirements which could be given in any round and must be addressed in the final solution.
- Teams are required to follow the problem statement guidelines and specifications provided by the event organizers.
- Code submissions must be in a deployable state at the end of each round, and teams are encouraged to document any known issues or limitations.

TIME MANAGEMENT AND RULES:

- A time limit of 30 minutes is allocated for every participant in each round of programming. Teams must manage their time efficiently to complete the assigned tasks within the specified timeframe
- A two-minute transition period is provided between rounds for team members to discuss progress, share insights, and plan the next steps.
- Plagiarism, defined as the submission of someone else's work as one's own, is strictly prohibited. All code must be original and created during the event.
- Teams must not engage in any form of disruptive behaviour, including attempts to sabotage the progress of other participating teams.
- No extra time will be provided to any participant.

Clash Royale

Enter the battlefield in this high-stakes tactical shooter tournament. Showcase your teamwork, strategy, and reflexes to outplay your opponents and claim victory.

- Date: 17 April
- Time: 2:00 PM – 4:00 PM
- Mode: Individual

1st Prize
₹2000

2nd Prize
₹1000

Event Coordinator

Name: Anurag Jain
+91 9864803743

EVENT OVERVIEW

EVENT RULES

Eligibility:

- All DSCE students are eligible to participate in Clash Royale.
- Valid student identification must be presented when requested.
- Pre-registration is mandatory. No on-site registrations will be accepted.

Tournament Details:

- Solo Event: This is an individual 1v1 tournament.
- Participants must use their own mobile devices and ensure they are fully charged.
- Connectivity: Participants are advised to use their own stable 5G/4G data and chargers. Organizers are not responsible for individual lag or disconnections.
- ID Requirement: Valid college ID is mandatory for participation.

Tournament Format:

- Bracket System: The tournament will follow a bracket-based progression.
- Scoring & Tie-breakers: In Group Stages/Round Robin, ranking is decided by the number of Match Wins.
- Tie-breaker: If two or more players have the same wins, the Total Net Crowns (Crowns Won minus Crowns Lost) will determine the rank.
- Match Progression:
  - Early Rounds: Best of 1 (Bo1)
  - Semifinals: Best of 3 (Bo3)
  - Finals: Best of 5 (Bo5)

Match Rules:

- Standardization: All matches played via Friendly Battle (Standard Levels).
- Duel Format (Bo3/Bo5):
- Players must prepare unique decks (3 for Bo3, 5 for Bo5).
- No Repeated Cards: A card used in Deck 1 cannot be used in Deck 2.
- Once a deck wins/is used, it cannot be reused in that specific match.

Technoseek

A tech-based treasure hunt that challenges your technical knowledge, logic, and problem-solving skills. Decode clues and navigate through levels to reach the final goal.

- Date: 17 April
- Time: 10:30 AM – 4:00 PM
- Mode: Team of 3

1st Prize
₹5000

2nd Prize
₹2500

Event Coordinator

Name: Shruti Sinha
+91 9741961764

EVENT OVERVIEW

"TechnoSeek" is a unique university-level technical treasure hunt competition that combines the thrill of traditional treasure hunt with typical tech. It challenges participants to combine their technical knowledge and problem-solving skills to unravel a series of hidden clues throughout the campus. The competition is designed to encourage participants to think creatively, work together in teams, and apply their technical expertise to uncover the final location.

VENUE

- Amphitheatre (Starting Point)
- Entire event will be conducted within campus premises

EVENT RULES

Eligibility:

- All university-level students are eligible to participate in TechnoSeek.
- Valid student identification must be presented when requested.
- Pre-registration is mandatory. No on-site registrations will be accepted.

Registration Details:

- Registration will be done only by the Team Lead

Team Composition:

- Teams should have 3 participants.
- Substitutes are not allowed during the competition.

Required Items:

- Each team must carry at least one laptop

Treasure Hunt Format:

- The competition will involve solving a series of technical clues and puzzles.
- Each clue will lead participants to the location of the next clue hidden within the campus.
- The final clue will guide teams to the ultimate destination where they will be declared winners.
- Winners would be decided by the total time taken (including penalties) by a team to complete the challenge.

Event Coordinator

Name: Shruti Sinha
+91 9741961764

CLUE AND PUZZLE DIFFICULTY:

- Clues will be graded in terms of difficulty, with varying levels of technical knowledge required to decipher them.
- Team members should work together to solve each clue and proceed to the next location.
- Clues may encompass a wide range of technical domains, so participants should be well-versed in various fields of technology.

TIME LIMIT:

- The treasure hunt must be completed within the allocated time frame.
- The timer will start when the event begins, and no additional time will be granted.

HINT REQUESTS:

- Teams are allowed to request hints if they are struggling to solve a clue.
- The number of hint requests per team may be limited.
- Each hint has a time penalty associated with it (which would depend on the level of the problem), and this would be added to the final time countdown.

WINNING CRITERIA:

- The team which completes all the challenges with the least amount of time taken wins.
- If no team is able to complete all the challenges within the allotted time limit, then the team which completes the highest number of challenges with the least amount of time taken wins.
- In case of a tie, the team which did not use any hints would be favored over the other team.
- If the tie still remains, a bonus round may be conducted to dissolve the tie.

Ideathon

Present your innovative ideas and entrepreneurial vision to a panel of judges. Impress with creativity, feasibility, and presentation skills to stand out.

- Date: 17 April
- Time: 10:00 AM – 12:00 PM
- Mode: Individual

1st Prize
₹2000

2nd Prize
₹1000

Event Coordinator

Name: Ayush
+91 8081489340

EVENT OVERVIEW

Theme : Open Innovation

JUDGING AND EVALUATION CRITERIA:

- Ideas are screened and evaluated for innovation, feasibility, relevance to domain, scalability, sustainability, and sometimes market potential.
- Judging panels' decisions are usually final, with no appeal allowed.

AWARDS AND RECOGNITION:

- Winners will receive certificates and prizes, all participants are given certificates of participation.

PPT STRUCTURE:

Slide 1: Title + Problem

- Project name, team, theme
- Problem (what's wrong + why it matters)

Slide 2: Existing + Gap

- What exists
- What's missing (the gap)

Slide 3: Your Idea

- What you're building
- Why it's better
- Flow / working

Slide 4: Implementation + Users

- Tech stack
- Target users

Slide 5: Impact + Future

- Impact (specific, not generic)
- Next steps

- Maximum 5 slides, font should be easily readable
- Clearly structure slides with headings, diagrams

Event Coordinator

DSA Smackdown

"DSA Smackdown" is a technical event that tests participant proficiency in data structures and algorithms. Participants are presented with a set of DSA questions and must aim for the highest score and the quickest completion time. This event will be conducted on Vjudge.

- Date: 18 April
- Time: 10:00 AM – 12:00 PM
- Mode: Individual

1st Prize
₹2000

2nd Prize
₹1000

Event Coordinator

Name: Yuvraj Shorewala
+91 9330376692

EVENT DETAILS AND LINK

Event details and the link to access the competition will be provided on the day of the event. Participants should check their emails or event communication channels for this information.

Scoring:

- Participants will earn points for each correctly answered question.
- Points may vary based on the difficulty level of the questions.
- There might be partial points based on the test cases passed.

Code Submission:

- Participants will have a specific time limit to complete as many questions as possible. The timer will start when the event begins. No extra time will be provided to any participant.
- Solutions can be written in the language of their choice from among those specified in the problem.
- Participants should assure they have login for Codeforces, Codechef and USACO ready as the JSESSION ID might be needed to make submission in VJudge.

Computer Access:

- Participants will be allowed to use computers provided in the lab.
- However, it is advised to carry their own laptops if they prefer to work on their own devices.

JUDGING CRITERIA:

The following criteria will be considered when determining the :

Winners-

- Points are allotted for every test case, and some test cases may carry more points than others.
- The final ranking will be based on the total points scored by the individual.

Tiebreakers-

- In the case of two or more participants scoring the same total points, the time taken by each participant to complete the questions will be considered for deciding the rank.
- The participant who completes the questions faster will be ranked higher.

Prompt Wars

A high-energy AI competition where participants battle to craft the most precise, creative, and strategic prompts to generate superior AI-powered outputs

- Date: 18 April
- Time: 2:00 PM – 3:00 PM
- Mode: Individual

1st Prize
₹2000

2nd Prize
₹1000

Event Coordinator

Name: Khushi Agrawal
+91 9109356699

EVENT OVERVIEW

"Prompt Wars" is an individual AI challenge where participants must build a documentation website using AI tools within a limited time

All participants are given the same task and are restricted to using only two prompts:

- One prompt to generate the initial output
- One prompt to refine and improve it

The objective is to create the most effective, well-structured, and visually appealing documentation website using minimal prompt interaction.

EVENT FLOW

- Rules Briefing – 5 minutes
- Challenge Reveal
- Build Phase – 20 minutes
- Showcase and Evaluation
- Winner Announcement and Prompt Breakdown

Participation rules:

- This is an individual event; team participation is not allowed
- Participants must use only the provided AI interface
- Only two prompts are allowed per participant:
  - One for creation
  - One for refinement
- No pre-written prompts are allowed
- No external help, tools, or resources are permitted
- Participants must adhere strictly to the time limits

Time Limits:

- Total duration: 1 hour
- Build phase: 20 minutes (strictly enforced)
- No extra time will be provided

Evaluation Criteria:

- Structure and clarity of documentation
- Effective use of prompts
- Creativity and presentation
- Completeness of the website
- Optimization between first and second prompt
